

HTML + CSS + responsive design

Ex: 1

Write HTML and CSS code that implement the following:

Lore ipsum is simply dummy text of the printing and typesetting industry. Lore ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lore ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lore ipsum.

Ex 2

Write HTML and CSS code that implement the following:

Use color of your choice (only hex # color) and **make it gradient**.
